NFC Academy Lesson Planner

Kindergarten Language Arts Lessons 41-80

This NFC Academy Teacher Guide is designed to keep homeschool families on track for a completion during a school year program of approximately 180 days. Schedules may vary and the parent may adjust the teaching assignments as required by the home schedule, but all work should be completed. Information in this teacher guide comprises 160 lessons, scheduled reviews, and days for evaluations which will make up near the 180 school days in a typical school year. We have grouped 10-12 lessons in each series, encouraging parents to practice plenty of review for young learners. At the end of each quarter's lessons, there is a student evaluation to be conducted which is contained in the back of the Teacher's Guide Book. The parent may record the date each lesson is completed or may plan out the lessons and record the date to be completed. This Teacher Guide is a tool to assist the parent in meeting the educational goals for their child.

The following explanations to this Teacher Guide:

Day: The day of your school year from start date.

Date to Complete: That can be used to record the date you completed the study, or may be best used by establishing the date for each lesson to be completed. You may do more than one lesson per day when you carry over a lesson to the next day's assignment, and make adjustments to ensure that your child has covered the material adequately. Flexibility can be made to fit your schedule, but most of the time a regular routine helps ensure that you stay on a track to finish as you planned.

Teacher Guide: Refers to the page number from the Teacher's Curriculum Guide that was sent to you. This is where you have the information needed to conduct each lesson. You will find important writing material in the book, so become familiar with the book's materials available to you in the Teacher's Guide. As any teacher, there will be need for flash cards and other teachable review materials. Much will be suggested to be made; however, if you have a teacher's resources book store in your area, you may find many things there that will help you. If not, of course, there is a vast amount of material available over the Internet for teachers. Students learn from these important tools, so do not neglect them.

Student Book: The student work book that will correspond to the information from the Teacher Guide.

Language Arts: The Language Arts curriculum includes more than just one aspect of the curriculum. You will find phonics, reading, and other language skills a part of the lessons. Keep that in mind as you plan out the daily schedule. While the teacher guide covers all areas in the general plan, you will likely have several specific learning times set to cover the material.

NFC Academy Resource Teacher: You will be assigned an NFC Academy Resource teacher who will be available to answer your questions throughout your school year.

Student Evaluation: Complete the Student Evaluation for this section which is on pages 206-208 (use our material on the website to complete your grades) of the Teacher's Guide. Use the forms provided for you on the NFC Academy website for the Home Teacher Resources and then Kindergarten. These forms will guide you in completing the grades for the Kindergarten report card.

Kindergarten Language Arts Lessons 41-80

<u>Day</u>	<u>Date to Complete</u>	<u>Teacher's Guide</u>	<u>Student Book</u>
1	_____	Lesson 41: To Recognize Capital K and Small k – p. 118-119	Practice Kk – p. 82-83
