PRESCHOOL LESSONS 1-45

NFC ACADEMY 3000 N. MERIDIAN ROAD, TALLAHASSEE, FL 32312

HORIZON PRESCHOOL K-4

Lessons 1-45 Quarter One

The parent will need to determine the scope of the day's activity. The program is designed to be either a full-day program or a program of approximately a half-day or less. A half-day program would not include all of the activities in the Teacher Guide. The Daily lesson Planner for the very first lesson would give an idea for a full day program, but the remainder of the DLP will be to focus on those parts of the program that are academically important as the student heads to kindergarten which would include primarily Language Arts with phonics and writing then math, color, shapes and finally Bible. The parent may add additional topics we have omitted from the half-day program, but we do encourage each family to determine what is best for your child. We will include such activities as color and shapes which we believe will be helpful to the student. Arts and Crafts are fun things and the home teacher may choose to include. Certainly exercise is important for the young learner, but we leave that to the parent if they determine to make it formalized or just a time of fun. We have included the Social Studies in the program, but that is an option for each family.

The Resource Packet will provide the teacher resources for daily lessons. You will find the Memory Verse cards for cut out at p. 219 – 230; the Counting Train pp.232-235. Other resources will be used in the daily lessons throughout the year.

*Lesson 1 is in detail which will not appear for most lessons. It is important that the teacher follow the lessons as outlined in Teacher Guide using the resources noted within the notes to the teacher. Only when a specific resource is noted will that be listed in DLP otherwise the directions in the Teacher Guides Book 1 and Book 2 will provide the home teacher the details for the lessons. When necessary, in these early lessons the parent may want to construct other name plates for training the student to recognize their name in print. **We recommend Arts & Crafts as determined by the parent. Students gain fine motor skills in many of these activities.***
